and The Studio at Gallery North Present ...

TESLA TECH ART CAMP

Join us for an electrifying new camp experience where students will discover the connections between art and technology. Inspired by inventor and creative genius Nikola Tesla, this week-long program will encourage students to take thoughtful risks as we explore the Design Thinking process. Science, Technology, Engineering, Art and Math will form the educational and inspirational foundation behind everything created at Tesla Tech Art Camp!

Each day we will connect technology with art in the creation of Idea Journals.

HIGHLIGHTS INCLUDE:

- Draw Bots** – Using robotics to create collaborative art
- Cymatics** – Create amazing art through the science of sound
- Silkscreen Tech** – The art of silkscreening combined with augmented reality
- Neon Art** – Explore neon art and blacklighting
- 3D Printing** – Creating tech art sculptures

REGISTER ONLINE AT GALLERYNORTH.ORG

All materials are included, along with a sketchbook and ArtVentures t-shirt for each attendee. Snack is provided to fuel creative minds. Please bring your own bagged lunch.
